Free Style Living in a Condo

Free Style Living in a Condo

The Davis welcomes you to enjoy the carefree luxury condo lifestyle with no upkeep or maintenance. Travel anytime for as long as your heart desires, worry-free!

MAINTENANCE-FREE CONDO LIVING

Condominiums offer a lifestyle that's modern, convenient and comfortable – as well as maintenance-free. Think about it. Does your busy life really leave you any time, or energy, for tending a garden or mowing lawns in hot summers, or shoveling snow or breaking up an icy driveway on a frigid winter morning? If the answer is definitely not, then you can benefit by choosing the carefree condo lifestyle. Like most condominiums, maintenance is included at The Davis. You don't have to bother about these things, or any one of the many repair and upkeep issues that will arise in owning a private home.

CAREFREE FREEDOM TO GET-UP&GO

With snow shoveling, leaf raking and other upkeep chores a thing of the past, The Davis also offers you the ability to 'lock-and-leave' without a care. Whether it's weekends at the cottage or a trip to visit family for the holidays, condo living gives you the benefit of leaving home without a care, knowing that you won't return to a problem.

TRAVEL WORRY FREE

Choosing a condo also means that your retirement dream of exotic travel, long adventures or splitting your year between two (or more) homes becomes a worry-free proposition.

Going down south for the winter? Who will look after your home? Will your neighbour remember to bring in your mail or leave it on the doorstep or in a full mailbox that's a red flag to burglars? Who will make sure the pipes don't burst from the freezing weather or clear your roof, or shovel the driveway? It's a lot to ask someone to do and a big expense to pay house sitting companies. When home is a condo, you can relax and explore your world for as long as you desire without worry.
